

In an announcement dated March 13, 2020, DHCS wrote:

Dear Stakeholders:

As California works to limit the spread of coronavirus, the Department of Health Care Services (DHCS) is closely monitoring the COVID-19 situation, coordinating with the state and federal government, and working with our partners to protect the health of Californians.

The DHCS [homepage](#) includes information and links to the Department's response to COVID-19, and to the state's response as outlined on the California Department of Public Health (CDPH) website. DHCS links provide information about medically necessary [COVID-19 testing and care, guidance](#) to Medi-Cal managed care plans, consumer health care coverage [options, guidance](#) for the fee-for-service pharmacy benefit, and Medi-Cal Eligibility Division Information Letter [20-06](#) (Public Health Crisis or Disaster Reminders for Medi-Cal). The webpage will be updated as DHCS' COVID-19 response continues.

Additionally, please visit the CDPH website for COVID-19 [updates](#) and a list of various guidance [documents](#).

DHCS is committed to ensuring that Medi-Cal members get access to the care they need. We will continue to keep our stakeholders apprised of our efforts.

Thank you,

DHCS
